Int J Gynecol Obstet, 1991, 35: 385–387
International Federation of Gynecology and Obstetrics

Subject Index

Volume 35

abortion, prostaglandin, 337
abortions in uterine anomalies, uterine anomalies, pregnancy outcome, uterus unicornis, uterus bicornis, septate uterus, 215
accelerations, fetal heart rate, variability, small for gestational age, 133
acetyl salicylic acid, preeclampsia, prostacyclin, thromboxane, blood pressure, methyl dopa, 311
Afrikaans speaking students, menstruation, symptoms, management, 147
agonadal, endometrium, embryo donation, 61
altered fetal growth, symphysis, fundal height, antenatal screening, intrauterine growth retardation, 231
amniotic fluid, growth hormone, fetal growth, birthweight, umbilical cord serum, maternal serum, 305
amniotomy, intravenous infusion, oxytocics, episiotomy, fetal monitoring, 107
angiotensin II, pregnancy, low-dose aspirin, 123
antenatal screening, symphysis, fundal height, altered fetal growth, intrauterine growth retardation, 231
anthropometry, dystocia, prenatal care, body weights and measures, 347
anticoagulation, pregnancy, cardiac valve replacement, 117
antiphospholipid antibody, recurrent abortion, MLR-blocking effect, cytotoxic antibody, 239
artifactual event, prolactin surge, 247
aspiration, Gartner cysts, vaginal cysts, tetracycline, sclerotherapy, sclerosants, 235
assessment, color and pulsed Doppler ultrasound, intracranial arterial hemodynamics, fetus, 139

birthweight, growth hormone, fetal growth, umbilical cord serum, maternal serum, amniotic fluid, 305
blood pressure, preeclampsia, acetyl salicylic acid, prostacyclin, thromboxane, methyl dopa, 311
body weights and measures, dystocia, prenatal care, anthropometry, 347

carbohydrate metabolism, triphasic oral contraceptives, levonorgestrel/ethinyl estradiol, 69
carcinoma of the cervix, oral cavity, metastasis, 79
cardiac valve replacement, pregnancy, anticoagulation, 117
cervical preneoplastic lesions, human papillomavirus, in situ hybridization, 323
cervix, squamous-cell carcinoma, endometrium, simultaneous, superficial-spreading, 169
cesarean delivery, intratuerine device, immediate postpartum contraception, Delta loop and Delta T, IUD insertions by midwives, contraception in China, 157
cesarean delivery, perinatal mortality, Nigeria, 299
cesarean section, prediction of febrile morbidity, 225
Chlamydia trachomatis, ectopic pregnancy, developing countries, pelvic inflammatory disease, progestin-only pill, schistosomiasis, 55
chromosomes, gonadal dysgenesis, leukemia, 83
cocaine, pregnancy outcome, toxicology, 51
color and pulsed Doppler ultrasound, intracranial arterial hemodynamics, fetus, assessment, 139
contraception, sexual activity, induced aboriton, Zaria, Nigeria, 73
contraception in China, intratuerine device, immediate postpartum contraception, Delta loop and Delta T, cesarean delivery, IUD insertions by midwives, 157
copper, zinc, maternal blood, fetal cord blood, 47
cytotoxic antibody, recurrent abortion, antiphospholipid antibody, MLR-blocking effect, 239

Delta loop and Delta T, intratuerine device, immediate postpartum contraception, cesarean delivery, IUD insertions by midwives, contraception in China, 157
depo-medroxyprogesterone acetate, subdermal levonorgestrel implants, Norplant^{R}, oral contraceptives, intrauterine device, surgical sterilization, acceptability, 331
developing countries, ectopic pregnancy, pelvic inflammatory disease, *Chlamydia trachomatis*, progestin-only pill, schistosomiasis, 55
developing countries, obstetric complications, trends, Malaysia, 29
difficulty, preoperative diagnostic imaging, normal-sized ovary carcinoma syndrome, pitfall, 259
dystocia, prenatal care, anthropometry, body weights and measures, 347

eclampsia, maternal mortality, health care provision, 19
ectopic pregnancy, developing countries, pelvic inflammatory disease, *Chlamydia trachomatis*, progestin-only pill, schistosomiasis, 55
embryo donation, endometrium, agonadal, 61
endometrium, agonadal, embryo donation, 61
endometrium, squamous-cell carcinoma, cervix, simultaneous, superficial-spreading, 169
episiotomy, amniotomy, intravenous infusion, oxytocics, fetal monitoring, 107

fertility outcome, genital tuberculosis, 1
fetal cord blood, copper, zinc, maternal blood, 47
fetal death, umbilical cord, torsion, 165
fetal deaths, risk, Latin American hospitals, 209
fetal growth, growth hormone, birthweight, umbilical cord serum, maternal serum, amniotic fluid, 305
fetal heart rate, accelerations, variability, small for gestational age, 133
fetal lung maturity, viscosity, lecithin/sphingomyelin ratio, 351
fetal monitoring, amniotomy, intravenous infusion, oxytocics, episiotomy, 107
fetal transfusion, isoimmunization, hydrops, 41
fetus, color and pulsed Doppler ultrasound, intracranial arterial hemodynamics, assessment, 139
fundal height, symphysis, antenatal screening, altered fetal growth, intrauterine growth retardation, 231

Gartner cysts, vaginal cysts, aspiration, tetracycline, sclerotherapy, sclerosants, 235
genital tuberculosis, fertility outcome, 1
gestational diabetes, pregnancy, 13
gestational hypertension, roll over test, left lateral position, supine position, predictive value, 37
gonadal dysgenesis, leukemia, chromosomes, 83
growth hormone, fetal growth, birthweight, umbilical cord serum, maternal serum, amniotic fluid, 305

health care provision, maternal mortality, eclampsia, 19
human menopausal gonadotrophin/human chorionic gonadotrophin sperm allergy infertility, intrauterine insemination, 151
human menopausal gonadotropin, unexplained infertility, 327
human papillomavirus, in situ hybridization, cervical preneoplastic lesions, 323
hydrops, isoimmunization, fetal transfusion, 41

immediate postpartum contraception, intratuerine device, Delta loop and Delta T, cesarean delivery, IUD insertions by midwives, contraception in China, 157
induced aboriton, sexual activity, contraception, Zaria, Nigeria, 73
induction of labor, prostaglandin E_2 tablet, 221
intracranial arterial hemodynamics, color and pulsed Doppler ultrasound, fetus, assessment, 139
intratuerine device, immediate postpartum contraception, Delta loop and Delta T, cesarean delivery, IUD insertions by midwives, contraception in China, 157
intrauterine device, subdermal levonorgestrel implants, Norplant^R, oral contraceptives, depo-medroxyprogesterone acetate, surgical sterilization, acceptability, 331
intrauterine growth retardation, symphysis, fundal height, antenatal screening, altered fetal growth, 231
intrauterine insemination, sperm allergy infertility, human menopausal gonadotrophin/human chorionic gonadotrophin 151
intravenous infusion, amniotomy, oxytocics, episiotomy, fetal monitoring, 107
in situ hybridization, human papillomavirus, cervical preneoplastic lesions, 323
isoimmunization, fetal transfusion, hydrops, 41
IUD insertions by midwives, intratuerine device, immediate postpartum contraception, Delta loop and Delta T, cesarean delivery, contraception in China, 157

Latin American hospitals, fetal deaths, risk, 209
lecithin/sphingomyelin ratio, viscosity, fetal lung maturity, 351
left lateral position, roll over test, gestational hypertension, supine position, predictive value, 37
leukemia, gonadal dysgenesis, chromosomes, 83
levonorgestrel/ethinyl estradiol, carbohydrate metabolism, triphasic oral contraceptives, 69
low-dose aspirin, pregnancy, angiotensin II, 123
Malaysia, obstetric complications, trends, developing countries, 29
management, menstruation, symptoms, Afrikaans speaking students, 147
maternal blood, copper, zinc, fetal cord blood, 47
maternal mortality, health care provision, eclampsia, 19
maternal serum, growth hormone, fetal growth, birthweight, umbilical cord serum, amniotic fluid, 305
maternal serum α-fetoprotein, ovarian immature teratoma, 343
McRoberts maneuver, shoulder dystocia, 129
menstrual problems, vaginal hysterectomy, mentally retarded, surgical technique, 319
menstruation, symptoms, management, Afrikaans speaking students, 147
mentally retarded, vaginal hysterectomy, menstrual problems, surgical technique, 319
metastasis, oral cavity, carcinoma of the cervix, 79
methyl dopa, preeclampsia, acetyl salicylic acid, prostacyclin, thromboxane, blood pressure, 311
MLR-blocking effect, recurrent abortion, antiphospholipid antibody, cytotoxic antibody, 239
multiple myeloma, pregnancy, refractory anemia, 341

Nigeria, perinatal mortality, cesarean delivery, 299
normal-sized ovary carcinoma syndrome, preoperative diagnostic imaging, difficulty, pitfall, 259
Norplant^R, subdermal levonorgestrel implants, oral contraceptives, intrauterine device, depo-medroxyprogesterone acetate, surgical sterilization, acceptability, 331

obstetric complications, trends, developing countries, Malaysia, 29
oral cavity, metastasis, carcinoma of the cervix, 79
oral contraceptives, subdermal levonorgestrel implants, Norplant^R, intrauterine device, depo-medroxyprogesterone acetate, surgical sterilization, acceptability, 331
ovarian immature teratoma, maternal serum α-fetoprotein, 343
oxytocics, amniotomy, intravenous infusion, episiotomy, fetal monitoring, 107

pathergy, pyoderma gangrenosum, 175
pelvic inflammatory disease, ectopic pregnancy, developing countries, *Chlamydia trachomatis*, progestin-only pill, schistosomiasis, 55
perinatal mortality, cesarean delivery, Nigeria, 299
pitfall, preoperative diagnostic imaging, normal-sized ovary carcinoma syndrome, difficulty, 259
prediction of febrile morbidity, cesarean section, 225
predictive value, roll over test, gestational hypertension, left lateral position, supine position, 37
preeclampsia, acetyl salicylic acid, prostacyclin, thromboxane, blood pressure, methyl dopa, 311
pregnancy, cardiac valve replacement, anticoagulation, 117
pregnancy, gestational diabetes, 13
pregnancy, low-dose aspirin, angiotensin II, 123
pregnancy, multiple myeloma, refractory anemia, 341
pregnancy outcome, cocaine, toxicology, 51
pregnancy outcome, uterine anomalies, abortions in uterine anomalies, uterus unicornis, uterus bicornis, septate uterus, 215
prenatal care, dystocia, anthropometry, body weights and measures, 347
preoperative diagnostic imaging, normal-sized ovary carcinoma syndrome, difficulty, pitfall, 259
progestin-only pill, ectopic pregnancy, developing countries, pelvic inflammatory disease, *Chlamydia trachomatis*, schistosomiasis, 55
prolactin surge, artifactual event, 247
prostacyclin, preeclampsia, acetyl salicylic acid, thromboxane, blood pressure, methyl dopa, 311
prostaglandin, abortion, 337
prostaglandin E_2 tablet, induction of labor, 221
pyoderma gangrenosum, pathergy, 175

recurrent abortion, antiphospholipid antibody, MLR-blocking effect, cytotoxic antibody, 239
refractory anemia, multiple myeloma, pregnancy, 341
risk, fetal deaths, Latin American hospitals, 209
roll over test, gestational hypertension, left lateral position, supine position, predictive value, 37

schistosomiasis, ectopic pregnancy, developing countries, pelvic inflammatory disease, *Chlamydia trachomatis*, progestin-only pill, 55
sclerosants, Gartner cysts, vaginal cysts, aspiration, tetracycline, sclerotherapy, 235
sclerotherapy, Gartner cysts, vaginal cysts, aspiration, tetracycline, sclerosants, 235
septate uterus, uterine anomalies, pregnancy outcome, abortions in uterine anomalies, uterus unicornis, uterus bicornis, 215
sexual activity, contraception, induced aboriton, Zaria, Nigeria, 73
shoulder dystocia, McRoberts maneuver, 129
simultaneous, squamous-cell carcinoma, endometrium, cervix, superficial-spreading, 169
small for gestational age, fetal heart rate, accelerations, variability, 133
sperm allergy infertility, intrauterine insemination, human menopausal gonadotrophin/human chorionic gonadotrophin 151
squamous-cell carcinoma, endometrium, cervix, simultaneous, superficial-spreading, 169
subdermal levonorgestrel implants, Norplant R, oral contraceptives, intrauterine device, depo-medroxyprogesterone acetate, surgical sterilization, acceptability, 331
superficial-spreading, squamous-cell carcinoma, endometrium, cervix, simultaneous, 169
supine position, roll over test, gestational hypertension, left lateral position, predictive value, 37
surgical sterilization, acceptability, subdermal levonorgestrel implants, Norplant^R, oral contraceptives, intrauterine device, depo-medroxyprogesterone acetate, 331
surgical technique, vaginal hysterectomy, mentally retarded, menstrual problems, 319
symphysis, fundal height, antenatal screening, altered fetal growth, intrauterine growth retardation, 231
symptoms, menstruation, management, Afrikaans speaking students, 147

tetracycline, Gartner cysts, vaginal cysts, aspiration, sclerotherapy, sclerosants, 235
thromboxane, preeclampsia, acetyl salicylic acid, prostacyclin, blood pressure, methyl dopa, 311
torsion, umbilical cord, fetal death, 165
toxicology, cocaine, pregnancy outcome, 51
trends, obstetric complications, developing countries, Malaysia, 29
triphasic oral contraceptives, carbohydrate metabolism, levonorgestrel/ethinyl estradiol, 69

umbilical cord, torsion, fetal death, 165
umbilical cord serum, growth hormone, fetal growth, birthweight, maternal serum, amniotic fluid, 305
unexplained infertility, human menopausal gonadotropin, 327
uterine anomalies, pregnancy outcome, abortions in uterine anomalies, uterus unicornis, uterus bicornis, septate uterus, 215
uterus bicornis, uterine anomalies, pregnancy outcome, abortions in uterine anomalies, uterus unicornis, septate uterus, 215
uterus unicornis, uterine anomalies, pregnancy outcome, abortions in uterine anomalies, uterus bicornis, septate uterus, 215

vaginal cysts, Gartner cysts, aspiration, tetracycline, sclerotherapy, sclerosants, 235
vaginal hysterectomy, mentally retarded, menstrual problems, surgical technique, 319
variability, fetal heart rate, accelerations, small for gestational age, 133
viscosity, fetal lung maturity, lecithin/sphingomyelin ratio, 351

Zaria, Nigeria, sexual activity, contraception, induced aboriton, 73
zinc, copper, maternal blood, fetal cord blood, 47
